

COAST.

A Stage Goes Over a Grade.

FRUIT AND GRAIN PROSPECTS.

Three Vessels Wrecked on the Northwest Coast—Rain at the North.

Associated Press Dispatches to the HERALD.
YREKA, April 6.—At daylight, three hundred yards south of the summit of Siskiyou mountain, a four-horse livery team from Ashland, with Stutts' theatrical troupe of fifteen persons, ran away, the stage upsetting and throwing all over the grade. Driver Jasper Cunningham has been unconscious since the accident. He is supposed to be fatally injured. Two ladies and a little girl are badly hurt, and the others but slightly. It is not known what frightened the horses.

SAN FRANCISCO, April 6.—The latest from the accident on Siskiyou mountain this morning reports Jasper Cunningham, the driver of the stage, dangerously injured internally. Juliet Hazel, head badly cut, Mrs. Leconte, collar bone fractured, and Ivy Stutta, the little girl who was thrown out before the stage capsized, badly cut. The accident was caused by the breaking of a brake. The wounded are comfortably cared for in the old railroad house near the summit. All of the company were more or less injured.

Fruit and Grain Prospects.
SAN FRANCISCO, April 6.—The Call this morning prints crop and fruit reports from twenty-three counties. They show that in northern and eastern counties a fair average yield of cereals is assured. In the San Joaquin valley more rain is needed for even a two-third crop. In the Santa Clara and Napa valleys the outlook for fruit is excellent. In the southern counties late rains will produce an average yield.

Reports received this evening announce light rains in Oregon and Washington Territory and Northern California. A dispatch from Merced also announces a light rain falling, with a prospect of continuance. The wheat outlook may therefore be said to have slightly improved. The Signal Service to-night predicts light rains in Northern California, and fair weather with northwesterly winds in the southern portion.

Two Coal Vessels and a Sealing Schooner Lost.

SAN FRANCISCO, April 6.—The Merchant's Exchange received a dispatch to-day stating that the bark El Dorado, Captain Humphrey, from Seattle March 30th, for this port with coal, founded off Cape Flattery and all but two of the crew of twelve were lost. The vessel was 1076 tons burthen and owned by the same company. She was valued at \$250,000, partly insured. It is also reported that the ship St. Stephen, from Seattle March 31st, coal-laden for this port, has been lost. She was owned in New York.

SAN FRANCISCO, April 6.—From a dispatch received this morning it is learned that the sealing schooner Champion is ashore on Vacaovos Island and is a total loss. The vessel is owned in Victoria.

RAINING IN THE NORTH.

Prospects of Good Downpour.

Farmers Jubilant.

SAN FRANCISCO, April 6.—Rain began falling here to-day, shortly after noon, and gives promise of continuing for some time.

At Petaluma rain commenced to fall at 1 P. M. The very general need of it has caused considerable anxiety. The prospects are good for a downpour.

At Martinez it is raining with the wind strong in the south. Indications are favorable for a good rain.

At Merced the weather is cloudy with wind in the west; it is sprinkling rain lightly.

At Wheatland it commenced raining at 3:15 this afternoon, wind strong in the south. Indications for a good rain. Farmers are jubilant.

At Sacramento it commenced raining at 2:40 this afternoon, with prospects of continuing. The wind is southeast.

At Anderson rain commenced falling at 2 P. M.

SAN FRANCISCO, April 6.—Dispatches received from various points in the State show that the rain has fallen at Sonoma, Nicolaus, Milton, Orville, Colusa, Lincoln, Napa, Gilroy, Livermore, Lakeport, Santa Rosa, Cloverdale, Hollister, Watsonville, Marysville, Orland, Sacramento, Red Bluff, Eureka, Cottonwood, Merced, Healdsburg, Pleasanton, Lodi, Chico, Valley, Woodland, Petaluma, Grass Valley, Auburn, Placerville, San Jose and Port Costa, Modesto, Santa Cruz, Stockton and Yreka.

The rain which commenced falling here shortly after 2 o'clock this afternoon ceased at 9:30 this evening. It is now clear with prospects of remaining so.

Races at the Bay.

SAN FRANCISCO, April 6.—A race of half-mile heats took place at the Oakland track this afternoon between Joe Chamberlain and Bertie R for a \$2000 stake. Both heats were won by the latter in 51 and 51 1/2 seconds.

A race between Lize Clark, Echo and Post Boy and the mile handicap races were postponed owing to the inclemency of the weather.

Valuable Specimens Perished.

SAN FRANCISCO, April 6.—The Mineral Trustees recently appointed by Governor Bartlett, after organizing to-day, visited the cabinet and found that many of the most valuable specimens are missing. The specimens in the cabinet originally cost the State \$50,000, and it is believed the thefts will amount to thousands of dollars. The loss will be investigated.

Large Sale of Horses.

SAN FRANCISCO, April 6.—One hundred and two head of stock belonging to Haggin were sold to-day and brought \$18,000. The highest price paid was \$400. The horses were all raised on Haggin's ranches in Kern and Sacramento counties. Haggin expressed himself as much pleased with the result of the sale.

Marin Follows San Mateo.

SAN RAFAEL, April 6.—The Marin County Board of Supervisors at a meeting to-day raised the liquor license tax for all saloons to \$150 a quarter.

THE ORANGE BOOM.

Increased Activity and a Demand for Property.

SPECIAL DISPATCH TO THE HERALD.
ORANGE, via Santa Ana, April 6.—The real estate transactions for March, as taken from the county records, amounted to \$331,627. There is an increased activity and demand for not only town lots but vineyard and fruit land.

A NEW S. P. TICKET.

It Will Prove a Great Convenience to Travelers.

SAN FRANCISCO, April 6.—The Southern Pacific Railroad Company have issued a new ticket which they have placed on sale in the office of the Atlantic and Pacific. It enables purchasers to go from San Francisco to Los Angeles and thence to any point east along the line of the Atlantic and Pacific. This is a great accommodation for all Atlantic and Pacific passengers, who hitherto have been compelled to turn off at the southern Pacific main route at Mojave, whereas they can now proceed to Los Angeles, stay there as long as they please, and resume their journey by the way of Colton and San Bernardino to Barstow, thence by way of Albuquerque to Chicago or any other point.

An Old Californian and a Prominent Priest Pass Away.

SAN FRANCISCO, April 6.—Marriage Cohen, of the firm of Cohen & Wise, Merced, died in this city yesterday at No. 410 O'Farrell street, after a long illness of 67 years. He came to California thirty years ago and engaged in business at various points.

SAN FRANCISCO, April 6.—Rev. Jos. A. Gallagher, one of the best known Catholic priests of this State, died yesterday at the pastoral residence of St. Joseph's church, from fatty degeneration of the heart, aged 64.

Grand Lodge Officers A. O. U. W.

SAN FRANCISCO, April 6.—The Grand Lodge of the Ancient Order of United Workmen this afternoon elected the following officers for the ensuing year: Grand Master Workman, E. F. Loud, Valley Lodge No. 30, San Francisco; Grand Foreman, A. C. Baue, Mt. Hamilton Lodge No. 43, San Jose; Grand Overseer, J. N. Young, Union Lodge No. 21, Sacramento; Grand Recorder, Horace G. Pratt, California Lodge No. 1, Oakland (re-elected); Grand Receiver, C. H. Haile, Alameda Lodge No. 5, Alameda (re-elected); Grand Guide, Al. Cobler, Los Angeles Lodge No. 55, Los Angeles (re-elected); Grand Watchman, E. S. Bluff, (re-elected); Grand Treasurer, J. N. Block, Unity Lodge No. 27, San Francisco (re-elected); Supreme Representatives, Past Grand Master Workman Edwin Danforth, William H. Barnes and M. T. Brewer.

A Crooked Official.

SAN FRANCISCO, April 6.—The following dispatch was received by the Bee from Washington to-day: Hon. Wm. A. Sparks, Commissioner of the General Land Office, has received from C. F. Gardner, Receiver of Public Moneys at Sacramento, a report, accompanied by numerous exhibits in the form of copies of documents and letters, the whole tending to show that Selden Heitzel, Register of the land office at Sacramento, has been guilty of the most grave malfeasance in office and neglecting his duties to the injury of land claimants. An investigation here tends to corroborate the above. The amount said to be misappropriated will probably amount to thousands of dollars. Heitzel has been in office only since October last.

Santa Rosa's Prospects for a Railroad.

SANTA ROSA, Cal., April 6.—William Wood, Chief Engineer of the Southern Pacific Company, with an assistant, arrived here this morning on business connected with the Santa Rosa and Carquinez road. They were met by Col. M. L. McDonald and County Surveyor Davis and driven over to view a number of locations suitable for a depot. Mr. Wood says his company is ready to commence work when subscribers will transfer their subscriptions. The people are very much in favor of this company and subscribers are willing to transfer their amounts if they can avoid liability from the other company. It is thought that a road will be built by the Southern Pacific.

San Mateo's Library Building Burned.

SAN MATEO, April 6.—The Library Hall building, one of the finest structures in this city, was destroyed by fire at 4 o'clock this afternoon. The building, which was a two-story brick, was completed in January, 1885, at a cost of \$12,000. Besides the reading hall, the building was occupied by the Odd Fellows, Native Sons of the Golden West and the Ancient Order of United Workmen, all of whose property was lost. The Odd Fellows were insured. The insurance on the building was \$6000. The cause of the fire is unknown. Work will soon commence on a new hall.

Santa Rosa Afflicted With Incendiarism.

SANTA ROSA, April 6.—Another incendiary fire was discovered this morning in the rear of Hood & Tupper's grocery store. It had been started in a pile of boxes saturated with kerosene, and before the fire department could do effective work the stock of the above-named firm had been damaged to the extent of \$2000. The store of Kohr, Elmhurst & Co., was damaged with smoke and water to a considerable extent, but the amount is not known. The losses are fully covered by insurance. This makes the fifth incendiary fire this week.

Effects of the Interstate Commerce Law.

SAN FRANCISCO, April 6.—One of the results of the enforcement of the Interstate Commerce law is shown in the following circular, which has been sent to the principal retail business houses in this city by wholesale merchants:

"Owing to the enormous advance in freight on all goods which we handle, it becomes necessary for us to advance our prices and to withdraw any quotations which we have made you heretofore."

Cattle Thieves in Fresno County.

FRESNO, Cal., April 6.—On Saturday night thieves stole seventeen head of cattle from farmers on Big Dry creek, took them to Selma and sold them to butchers. The farmers went in search of the stock and found them, but one had been killed. The thieves made their escape, but officers are in close pursuit.

EASTERN.

Whitelaw Reid says Blaine Must Go.

A \$200,000 FIRE IN BOSTON.

A Drought in Texas Causes Farmers to Desert their Homesteads.

Associated Press Dispatches to the HERALD.
NEW YORK, April 6.—A Washington special to the Post says: "A friend of Murat Halstead, in this city, is authority for the statement that Halstead had lately received from Whitelaw Reid a letter asserting that the time has come at last for Blaine to let go his grip upon the Republican party as far as the Presidency is concerned, and for all hands to turn in and nominate John Sherman. The letter adds that it is necessary. To cause the Tribune to swing into line is a positive assurance that Sherman is going into the Convention with a solid delegation from Ohio."

A \$200,000 Fire in Boston.

BOSTON, April 6.—A serious fire started at 96 Milk street this afternoon which swept through the building in a few minutes, and endangered the large building on the corner of Milk street and Post-office avenue. The fire was finally got under control before any of the surrounding buildings were seriously damaged. Wright & Potter, Station Printers, are the heaviest losers, suffering to the extent of \$100,000. The total loss will amount to nearly \$200,000.

A DROUGHT IN TEXAS.

Farmers Deserting the Homesteads.

SAN ANTONIO, Tex., April 6.—J. R. McCarthy, a resident of Somerset, Attascoma county, for several years, arrived in this city yesterday, having been forced to leave his home on account of the severity of the drought which now afflicts the agricultural districts of this State, especially the southwestern cotton belt. McCarthy says the people in the vicinity of Somerset and Benton are holding meetings daily to devise means to obtain food for a large portion of the community who are in need of the common necessities of life. Many have deserted their homesteads and homes, and gone to search for a more favored locality. Unless there is rain at a very early date the situation will be pitiable. People are now hauling water a distance of ten miles.

THE ELECTIONS.

Patriotism and Common Sense Vindicated in Chicago.

CHICAGO, April 6.—Commenting on the result of yesterday's election the Times, Independent Democrat, says: "The people of Chicago have given their answer in no uncertain tones to the brazen demand of the Haymarket banditti for the surrender of the municipal government into their blood-stained hands. The candidate of the red flag barbarians for the mayoralty has been defeated by a majority of 28,000, and his associates on the city and town tickets have suffered a like righteous fate. The result is a magnificent triumph for the intelligence and conscience of Chicago. It is a splendid vindication of patriotism. It is a crushing rebuke to the demagogues and tricksters of the Carter Harrison type, who, to promote their unallowable ambition for power, have been dallying with lawlessness and want and only trifling with the safety, prosperity and good name of this community."

THE FUSIONISTS CARRY WINCONSIN.

MILWAUKEE, Wis., April 6.—This city yesterday gave a majority for the labor candidates, but the towns polled a fusion vote that overtopped the labor vote in the city and elected fusion judicial candidates by a majority of nearly 1500.

LITTLE RHODEY'S ELECTION.
PROVIDENCE, R. I., April 6.—As far as can be ascertained, the balance of the day, the House stands: 27 Republicans and 20 Democrats. Senate, 18 Republicans and 10 Democrats, with four cities or towns to be heard from.

The returns have not all yet come in and election hangs in the balance. What has been heard to-day, however, shows a strong force for the Democratic candidate and will probably give him a majority. It is now thought that the entire Democratic ticket has been successful, although that was not the result first anticipated. The Prohibition vote is a fizzle, and the woman's suffrage vote made a poor show. The vote cast has been a very large one, and everybody that could cast a ballot has done so. The vote on Attorney General was practically the same as on Governor. As far as the returns are at hand the Woman Suffrage amendment was defeated badly. Davis' majority in the State will probably reach 1000, and it is likely to be snatched on the whole Democratic ticket.

THE FRAUDULENT SURVEYS.

They Have Been Going on Since 1879.

WASHINGTON, April 6.—Relative to the charges which have been brought in San Francisco against John A. Benson and others for alleged fraudulent land surveys, it is stated at the General Land Office that these frauds in connection with the survey of western public lands were made known to the land office in 1881, within limits, by the agent of the department, but he was substantially removed by the influence, it is said, of the rig. Their operations began in 1879, when the special district system was introduced. Commissioner Sparks stated in his last two annual reports that the surveys by the Pacific coast rig were, in the main, fictitious. He added that he refused to audit their accounts, and every effort has been used to force the payment of such accounts through the Treasury, over the heads of the accounting officers of the Interior Department. It is stated at the land office that the bulk of these frauds were committed prior to the year 1884, and were, therefore, covered by the statute of limitations, but the information upon which these indictments was obtained was by a preliminary examination only of the special agent. What a complete and thorough examination will result in, is a question.

INTERSTATE COMMISSION.

The "Long" and "Short Haul" Monopolizing its Attention.

WASHINGTON, April 6.—A petition has been received by the Interstate Commerce Commissioners to-day from the General Manager of the South Carolina railroad for the relief from the operations of the fourth section ("long" and "short haul" section) of the Interstate Commerce law, a petition having a like purpose having been received from the General Manager of the Georgia Pacific Railroad Company. The Commissioners were in conference two hours or more this morning, over petitions for the suspension of the "long" and "short haul" provision, but took a recess without having reached any conclusion.

At the afternoon session the Commission made the following ruling: The Interstate Commerce Commission, at a session of said Commission held at its rooms in this city (Washington) April 6th, 1887, in the matter of the petition of the Southern Railway and Steamship Association, application having been made to the Interstate Commerce Commission under Section 4 of an act of Congress entitled, "An act to regulate Commerce," by the Southern Railway and Steamship Association, common carrier, subject to the provisions of said act, for authority to charge less for large than for shorter distances, in certain cases—that is to say, for transportation of property from and to Boston, Providence, New York City, Philadelphia, Baltimore, Alexandria, Va., Cincinnati, Vicksburg, Miss., Memphis, Tenn., Nashville, Tenn., and points south thereof, and from and to said last-named points, each with the other so far as the same one situated in different States at higher rates than are charged from and to the same points, and from local points and intermediate points last enumerated on the same lines, and certain of said railroad companies lines and systems have also applied to the Commission for authority, so far as said points are reached by their respective, and said common carriers, having presented as a reason for granting that said application the existence of water and other competition, claiming that such rates cannot be met except by maintaining the rate heretofore established to and from said points, which are alleged to be too low to enable said common carriers to carry on business if applied to local intermediate points, and further claiming that a great disturbance of business will occur if the present traffic arrangements and rates are immediately changed, and it appears to the Commission after an investigation of the said petition and the facts presented in support thereof to be a proper case of a temporary order authorizing the existing rates to be maintained for the time being until the Commission can make a complete examination of the matter alleged, relieving said common carriers from the operation of said act, it is ordered that the application be and the same is hereby granted temporarily, subject to modification or revocation by the Commission at any time, upon hearing or otherwise, and that the said common carriers be temporarily relieved from said operation of the fourth section of said act to the extent specified in the recitals of this order for a period not greater than ninety days from this date, subject, however, to the action of the Commission in this order that a printed copy hereof shall be forthwith publicly posted and kept with the schedule of rates, fares and charges at every station upon the lines of said common carriers, and such schedule by law required to be posted and kept for the use of the public; and it is further ordered that the Commission convene at Atlanta, Ga., on the 16th day of April, 1887, at 3 o'clock P. M., and thereafter at Mobile, Ala., April 29th, New Orleans May 24th, and Memphis May 4th, for the consideration of the subject, at which times said common carriers, or any of them, may appear and present application for relief with evidence in support thereof, which applications each must show the precise relief desired, the facts upon which the same is claimed, and the extent to which relief from the operation of said section of said act is asked; and at the same place and same time any person interested in opposing or opposing to the relief asked for by said petitioners, may appear and present application for relief with evidence in support thereof, which applications each must show the precise relief desired, the facts upon which the same is claimed, and the extent to which relief from the operation of said section of said act is asked; and at the same place and same time any person interested in opposing or opposing to the relief asked for by said petitioners, may appear and present application for relief with evidence in support thereof, which applications each must show the precise relief desired, the facts upon which the same is claimed, and the extent to which relief from the operation of said section of said act is asked; and at the same place and same time any person interested in opposing or opposing to the relief asked for by said petitioners, may appear and present application for relief with evidence in support thereof, which applications each must show the precise relief desired, the facts upon which the same is claimed, and the extent to which relief from the operation of said section of said act is asked; and at the same place and same time any person interested in opposing or opposing to the relief asked for by said petitioners, may appear and present application for relief with evidence in support thereof, which applications each must show the precise relief desired, the facts upon which the same is claimed, and the extent to which relief from the operation of said section of said act is asked; and at the same place and same time any person interested in opposing or opposing to the relief asked for by said petitioners, may appear and present application for relief with evidence in support thereof, which applications each must show the precise relief desired, the facts upon which the same is claimed, and the extent to which relief from the operation of said section of said act is asked; and at the same place and same time any person interested in opposing or opposing to the relief asked for by said petitioners, may appear and present application for relief with evidence in support thereof, which applications each must show the precise relief desired, the facts upon which the same is claimed, and the extent to which relief from the operation of said section of said act is asked; and at the same place and same time any person interested in opposing or opposing to the relief asked for by said petitioners, may appear and present application for relief with evidence in support thereof, which applications each must show the precise relief desired, the facts upon which the same is claimed, and the extent to which relief from the operation of said section of said act is asked; and at the same place and same time any person interested in opposing or opposing to the relief asked for by said petitioners, may appear and present application for relief with evidence in support thereof, which applications each must show the precise relief desired, the facts upon which the same is claimed, and the extent to which relief from the operation of said section of said act is asked; and at the same place and same time any person interested in opposing or opposing to the relief asked for by said petitioners, may appear and present application for relief with evidence in support thereof, which applications each must show the precise relief desired, the facts upon which the same is claimed, and the extent to which relief from the operation of said section of said act is asked; and at the same place and same time any person interested in opposing or opposing to the relief asked for by said petitioners, may appear and present application for relief with evidence in support thereof, which applications each must show the precise relief desired, the facts upon which the same is claimed, and the extent to which relief from the operation of said section of said act is asked; and at the same place and same time any person interested in opposing or opposing to the relief asked for by said petitioners, may appear and present application for relief with evidence in support thereof, which applications each must show the precise relief desired, the facts upon which the same is claimed, and the extent to which relief from the operation of said section of said act is asked; and at the same place and same time any person interested in opposing or opposing to the relief asked for by said petitioners, may appear and present application for relief with evidence in support thereof, which applications each must show the precise relief desired, the facts upon which the same is claimed, and the extent to which relief from the operation of said section of said act is asked; and at the same place and same time any person interested in opposing or opposing to the relief asked for by said petitioners, may appear and present application for relief with evidence in support thereof, which applications each must show the precise relief desired, the facts upon which the same is claimed, and the extent to which relief from the operation of said section of said act is asked; and at the same place and same time any person interested in opposing or opposing to the relief asked for by said petitioners, may appear and present application for relief with evidence in support thereof, which applications each must show the precise relief desired, the facts upon which the same is claimed, and the extent to which relief from the operation of said section of said act is asked; and at the same place and same time any person interested in opposing or opposing to the relief asked for by said petitioners, may appear and present application for relief with evidence in support thereof, which applications each must show the precise relief desired, the facts upon which the same is claimed, and the extent to which relief from the operation of said section of said act is asked; and at the same place and same time any person interested in opposing or opposing to the relief asked for by said petitioners, may appear and present application for relief with evidence in support thereof, which applications each must show the precise relief desired, the facts upon which the same is claimed, and the extent to which relief from the operation of said section of said act is asked; and at the same place and same time any person interested in opposing or opposing to the relief asked for by said petitioners, may appear and present application for relief with evidence in support thereof, which applications each must show the precise relief desired, the facts upon which the same is claimed, and the extent to which relief from the operation of said section of said act is asked; and at the same place and same time any person interested in opposing or opposing to the relief asked for by said petitioners, may appear and present application for relief with evidence in support thereof, which applications each must show the precise relief desired, the facts upon which the same is claimed, and the extent to which relief from the operation of said section of said act is asked; and at the same place and same time any person interested in opposing or opposing to the relief asked for by said petitioners, may appear and present application for relief with evidence in support thereof, which applications each must show the precise relief desired, the facts upon which the same is claimed, and the extent to which relief from the operation of said section of said act is asked; and at the same place and same time any person interested in opposing or opposing to the relief asked for by said petitioners, may appear and present application for relief with evidence in support thereof, which applications each must show the precise relief desired, the facts upon which the same is claimed, and the extent to which relief from the operation of said section of said act is asked; and at the same place and same time any person interested in opposing or opposing to the relief asked for by said petitioners, may appear and present application for relief with evidence in support thereof, which applications each must show the precise relief desired, the facts upon which the same is claimed, and the extent to which relief from the operation of said section of said act is asked; and at the same place and same time any person interested in opposing or opposing to the relief asked for by said petitioners, may appear and present application for relief with evidence in support thereof, which applications each must show the precise relief desired, the facts upon which the same is claimed, and the extent to which relief from the operation of said section of said act is asked; and at the same place and same time any person interested in opposing or opposing to the relief asked for by said petitioners, may appear and present application for relief with evidence in support thereof, which applications each must show the precise relief desired, the facts upon which the same is claimed, and the extent to which relief from the operation of said section of said act is asked; and at the same place and same time any person interested in opposing or opposing to the relief asked for by said petitioners, may appear and present application for relief with evidence in support thereof, which applications each must show the precise relief desired, the facts upon which the same is claimed, and the extent to which relief from the operation of said section of said act is asked; and at the same place and same time any person interested in opposing or opposing to the relief asked for by said petitioners, may appear and present application for relief with evidence in support thereof, which applications each must show the precise relief desired, the facts upon which the same is claimed, and the extent to which relief from the operation of said section of said act is asked; and at the same place and same time any person interested in opposing or opposing to the relief asked for by said petitioners, may appear and present application for relief with evidence in support thereof, which applications each must show the precise relief desired, the facts upon which the same is claimed, and the extent to which relief from the operation of said section of said act is asked; and at the same place and same time any person interested in opposing or opposing to the relief asked for by said petitioners, may appear and present application for relief with evidence in support thereof, which applications each must show the precise relief desired, the facts upon which the same is claimed, and the extent to which relief from the operation of said section of said act is asked; and at the same place and same time any person interested in opposing or opposing to the relief asked for by said petitioners, may appear and present application for relief with evidence in support thereof, which applications each must show the precise relief desired, the facts upon which the same is claimed, and the extent to which relief from the operation of said section of said act is asked; and at the same place and same time any person interested in opposing or opposing to the relief asked for by said petitioners, may appear and present application for relief with evidence in support thereof, which applications each must show the precise relief desired, the facts upon which the same is claimed, and the extent to which relief from the operation of said section of said act is asked; and at the same place and same time any person interested in opposing or opposing to the relief asked for by said petitioners, may appear and present application for relief with evidence in support thereof, which applications each must show the precise relief desired, the facts upon which the same is claimed, and the extent to which relief from the operation of said section of said act is asked; and at the same place and same time any person interested in opposing or opposing to the relief asked for by said petitioners, may appear and present application for relief with evidence in support thereof, which applications each must show the precise relief desired, the facts upon which the same is claimed, and the extent to which relief from the operation of said section of said act is asked; and at the same place and same time any person interested in opposing or opposing to the relief asked for by said petitioners, may appear and present application for relief with evidence in support thereof, which applications each must show the precise relief desired, the facts upon which the same is claimed, and the extent to which relief from the operation of said section of said act is asked; and at the same place and same time any person interested in opposing or opposing to the relief asked for by said petitioners, may appear and present application for relief with evidence in support thereof, which applications each must show the precise relief desired, the facts upon which the same is claimed, and the extent to which relief from the operation of said section of said act is asked; and at the same place and same time any person interested in opposing or opposing to the relief asked for by said petitioners, may appear and present application for relief with evidence in support thereof, which applications each must show the precise relief desired, the facts upon which the same is claimed, and the extent to which relief from the operation of said section of said act is asked; and at the same place and same time any person interested in opposing or opposing to the relief asked for by said petitioners, may appear and present application for relief with evidence in support thereof, which applications each must show the precise relief desired, the facts upon which the same is claimed, and the extent to which relief from the operation of said section of said act is asked; and at the same place and same time any person interested in opposing or opposing to the relief asked for by said petitioners, may appear and present application for relief with evidence in support thereof, which applications each must show the precise relief desired, the facts upon which the same is claimed, and the extent to which relief from the operation of said section of said act is asked; and at the same place and same time any person interested in opposing or opposing to the relief asked for by said petitioners, may appear and present application for relief with evidence in support thereof, which applications each must show the precise relief desired, the facts upon which the same is claimed, and the extent to which relief from the operation of said section of said act is asked; and at the same place and same time any person interested in opposing or opposing to the relief asked for by said petitioners, may appear and present application for relief with evidence in support thereof, which applications each must show the precise relief desired, the facts upon which the same is claimed, and the extent to which relief from the operation of said section of said act is asked; and at the same place and same time any person interested in opposing or opposing to the relief asked for by said petitioners, may appear and present application for relief with evidence in support thereof, which applications each must show the precise relief desired, the facts upon which the same is claimed, and the extent to which relief from the operation of said section of said act is asked; and at the same place and same time any person interested in opposing or opposing to the relief asked for by said petitioners, may appear and present application for relief with evidence in support thereof, which applications each must show the precise relief desired, the facts upon which the same is claimed, and the extent to which relief from the operation of said section of said act is asked; and at the same place and same time any person interested in opposing or opposing to the relief asked for by said petitioners, may appear and present application for relief with evidence in support thereof, which applications each must show the precise relief desired, the facts upon which the same is claimed, and the extent to which relief from the operation of said section of said act is asked; and at the same place and same time any person interested in opposing or opposing to the relief asked for by said petitioners, may appear and present application for relief with evidence in support thereof, which applications each must show the precise relief desired, the facts upon which the same is claimed, and the extent to which relief from the operation of said section of said act is asked; and at the same place and same time any person interested in opposing or opposing to the relief asked for by said petitioners, may appear and present application for relief with evidence in support thereof, which applications each must show the precise relief desired, the facts upon which the same is claimed, and the extent to which relief from the operation of said section of said act is asked; and at the same place and same time any person interested in opposing or opposing to the relief asked for by said petitioners, may appear and present application for relief with evidence in support thereof, which applications each must show the precise relief desired, the facts upon which the same is claimed, and the extent to which relief from the operation of said section of said act is asked; IN HUMAN PARENTS.

Mr. and Mrs. Cowles Convicted of Cruelty to Children.

The charge of cruelty to children against Mr. and Mrs. Cowles was fully ventilated before Justice Austin yesterday, and they were convicted and will be sentenced on Friday. It is to be hoped that the Justice will take into full cognizance the atrocious cruelty which they practiced towards helpless infants, and mete out to them the full punishment allowed by the law, for certainly a case of more horrible treatment by parents of their young never came to light in this community. These parents, according to the testimony, lived on Alameda street, near New Main, in a couple of rooms which were kept in such a state of filthiness as to turn those who visited them sick at the stomach. Here Mr. and Mrs. Cowles and three children lived. The parents were seldom sober, and Mrs. Cowles lived in open adultery with the apparent consent of her husband, with Frank Ayers, whom she admits is the father of the youngest baby. This baby, which is scarcely over two months old, is in a condition too horrible to picture in words. When found, after the fracas of Monday night, it was wrapped in clothes so filthy that no person, with regard to health, would care to touch. Vermin crawled all over them and the child, when relieved of them, was a living mass of sores. It was apparently in a starving condition, and was scarcely more than skin and bones. So thin was its neck that it was almost transparent. The two older children, aged 5 and 7, were also filthy dressed and had been much neglected. There were no bedclothes in the room, and the only table furniture was a dirty cup and saucer. Justice Austin, after hearing the testimony, found the parents guilty as charged and will sentence them on Friday. The two older children were sent to the Orphans' Home and the baby is being doctored, but it is hardly probable that it will live. Seldom has a case come to light which has excited so much indignation among the people who have investigated it and who generally take generous interest in neglected waifs.

Angelenos Abroad.

The good people of Phoenix, Arizona, are quick to recognize a public spirited man and especially a Los Angeles man. Phoenix and Los Angeles have always been very friendly, and the following notices from the Herald April 23, of that city, concerning our esteemed fellow-citizen, J. De Barth Shorb, are very pleasant and appreciative: "The Hon. J. De Barth Shorb, of San Gabriel, Cal., accompanied by his son, arrived in this city yesterday. Mr. Shorb is one of the ablest men in the Democratic party and one who has never sought office. His public life has been devoted largely to the development of the magnificent resources of Southern California, in which he has been eminently successful. His orchards, vineyards and winery are among the largest and best in the State. He has been active in promoting irrigation and to him may be attributed largely the order and efficiency that has been evolved from the chaos of conflicting systems—or rather lack of system. His first impressions of this valley are decidedly favorable and he hoped that they may be strengthened the more he examines into its resources. He has rooms at Hotel Lemon."

W. J. Murphy, accompanied by Hon. J. De Barth Shorb and son, F. Q. Story and J. Harbert, went to the head of the Arizona canal this morning and will return by way of Mesa City and Tempe. Mr. Shorb is desirous of seeing some of the wine products of the valley, that he may judge of the future of this country as a wine producer. He has expressed an opinion that it will grow grapes particularly adapted to the manufacture of a superior cherry. If so, he says, "there is not land enough to fill the demand."

At the district court room in the city of Phoenix, on Monday evening, April 4th, next, at 8 o'clock, the undersigned citizens of Phoenix will tender a public reception to the Hon. J. De Barth Shorb, of San Gabriel, California. All interested in the welfare of our valley are cordially invited to be present: DeForest Porter, Wm. A. Hancock, George F. Coats, E. J. Bennett, W. J. Woods, Jr., J. L. B. Alexander, L. H. Chalmers, J. Millay, W. Street, T. E. Farish, J. W. Blankenship, E. Ganz, J. T. Dennis, A. J. Halbert, J. W. Crenshaw, J. K. Murphy, J. B. Long, I. H. Cox, C. W. Catton, M. H. Calderwood, C. Eschman, R. Goldman, Geo. W. Hoadley, Farley and Grant, M. H. Sherman, W. F. McNulty, N. H. Morford, A. D. Lemon, Lincoln Fowler, Frank Baxter, H. H. McNeil, Geo. E. Moery, P. K. Hickey, H. H. Logan, E. H. Hiller, Clark Churchill, W. T. Woods, Simon Novinger, G. W. Ingalls, J. W. Evans, G. F. Kemper, Frank Cox, Henry L. Wharton, H. H. Wharton, E. F. Stafford, G. Ellis & Co., W. L. Whely, Sam F. Webb, Chas. Goldman, R. L. Rosson, M. Jacobs & Co., G. Tantis, W. W. Vigna, G. F. Thornton, H. B. Linville, Lincoln Fowler.

Santa Monica Sayings.

The Outlook says: We have received the ILLUSTRATED LOS ANGELES HERALD for 1887. It is a forty-eight page paper, handsomely printed and illustrated, and "filled to the brim" with valuable descriptive and statistical matter about Los Angeles county and other portions of Southern California. We shall notice it more fully when we shall have had time to examine it.

Several Catholic ladies of Santa Monica have been interesting themselves to get Father Howe a nice "turn-out." They have purchased a new buggy, and Richard Garvey, of San Gabriel, has contributed a horse. In a little while the good Father will be able to ride out in a nice "rig" of his own.

Mrs. Ponet, of Los Angeles, who is now in Europe, has presented to the Catholic Church in this place, a statue of Santa Monica. It is about three feet in height, and now stands as a crowning feature of the altar.

Cure for Piles.

PILES are frequently preceded by a sense of weight in the back, loins and lower part of the abdomen, causing the patient to suppose he has some affection of the kidneys or neighboring organs. At times, symptoms of indigestion are present, flatulency, uneasiness of the stomach, etc. A moisture like perspiration, producing a very disagreeable itching, is often present. Blind, bleeding and itching piles yield at once to the application of Dr. Bosanko's Pile Remedy, which acts directly upon the parts affected, absorbing the tumors, allaying the intense itching, and effecting a permanent cure. Price 50 cents. Address the Bosanko Medicine Co., Piqua, O. Sold by E. F. Heinemann.

A Good Nurse

Should not hesitate to wait upon those ill with such diseases as Smallpox, Cholera or Scarlet Fever. There is little to be feared by persons waiting on the sick if they will use Darby's Prophylactic Fluid freely. In sick rooms it should be exposed on a plate or saucer, and the patient sponged off with the fluid diluted. For safety, cleanliness and comfort in the sick-room the fluid is indispensable.

Make a visit to the tropical Sandwich Islands. Hawaiian volcanoes in active eruption. Round-trip tickets at reduced rates.

THE AZUSA LAND AND WATER COMPANY

—WILL OFFER—

AT PUBLIC AUCTION

—AT—

ARMORY HALL, IN LOS ANGELES,

Thursday, April 7th, at 10 o'clock a. m. of that day,

—ALL ITS—

TOWN LOTS!

Undisposed of, being nearly one-half of the lots in

Hildreth Mining News.

The Mountain View mine has been sold to the English syndicate, the figure being \$150,000, the Chapman water ditch being included in the purchase. The mine was banded some time ago to Jeff Donohoe, Albion and Brown. The new company are now having surveying, etc., done by a corps of engineers. Herbert Towers and James Kirby are sinking and drifting on the White Bear prospect, and from the present indications the different veins will come together shortly and form a compact pay chute, and when this happens in this district the result has always proven satisfactory.

The leases on the Fleming mine are said to be doing very well. The mine is showing up in good shape.

Clark and Lantry have as fine an ore dump as there is in the district and will shortly commence putting up an astra through which they will work something over a hundred tons.

The owners of the Hampton mine, located on Persimmon Hill, have "struck it" during the past week. The ledge has a good dip and prospects well.

Mr. Crossman, of Fresno City, has taken charge of the Morning Star mine and will put on a force of miners at once. This mine adjoins the Rough and Ready (owned by the Baker boys) of which it is an extension. Both contain good ore and are regarded as good properties.

The discovery made in the Cascade mine continues to show up well as work progresses. We have been presented with a specimen from the mine which is full of fine-looking sulphurets and with some free gold visible.

Mr. Beck is running his ore through the Fuller mill and satisfactory results are anticipated. A clean up has not yet been made but will be very soon. The quartz from this property is unlike that of any mine in this vicinity but the ore is good and mills \$20 per ton allowing the sulphurets to run off with the tailings.

The Last Chance mine is looking well and we understand that \$500 rock is being run through their ten-stamp mill, which is supplied with two concentrators. This property is situated about sixteen miles northeast of Hildreth, well up in the mountains. It can be worked to advantage through a tunnel, affording a good chance to lift upon the ledge on account of the ore body being located in a steep hill.

Very rich ore has been struck in the lower levels of the Abbey mine, and reports say that no such ore has been encountered in the past working of this famous property. A depth of 700 feet has been reached, all in syntic, and pretty conclusively proves that the ore body is continuous and as good below as it was near the surface. This fact will have a tendency to improve the already good reputation of the district, as it shows that ledges are not liable to "pinch out" on depth being attained. This same experience has been gained in other properties in this vicinity, the rule being that improvement is the result of development.

The Francis-James mine holds its own both in richness and size of ledge as development progresses. At present the ledge, and ledge matter that prospects, is 9 feet thick between walls, being the largest continuous ore body in the district. Mr. Guern, one of the owners, recently arrived here from Santa Rosa and during his absence of six weeks the ledge widened from four to nine feet of high grade ore. This property is very valuable and its development is watched with interest.

The incline in the Wilson mine is now down 105 feet on a ledge that is three feet wide between walls and mills \$45 per ton in free gold. The sulphurets are also very rich. Several mining men have looked at this property and pronounced it a capital investment, and we understand a sale is likely to occur at almost any time, as there are several capitalists negotiating for its purchase. The property is more than what is claimed for it and will bear the closest examination. Locations have been made on all sides and along the course of the ledge for three-quarters of a mile by prospectors, some of whom are working on their locations and getting favorable results, particularly in the Patterson Luck Hit, the Berry and the H. D. Moore.

The White Rock property continues to make a good showing and if the pay chute in the south drift holds out another fifty feet it will be a second Mountain View.

A rich ore body was found last week adjoining the Zebra mine, by a prospector of small means. Quite a number of people from here have visited the location and speak in the highest terms of its richness. We congratulate the lucky owner.

The Zebra mine is putting through its average amount of ore from Tunnel No. 2. The ledge does not widen out but it takes its own in free gold and sulphurets. The company have no concentrators but are banking up their tailings which will be worked over some time in the future.

Andrew McCulloch has located a ledge northeast of Quartz Mountain, which has been christened the "Queen Mary of Santa Ana." The apex of the ledge is some eight feet above the surface, being about four feet between walls of contact formation, and prospects very good in coarse gold.

Harry Lee and Pyrrones are having built a twelve-foot astra in which to work some of their high grade ore. Their ledge is very favorably situated for being worked to an advantage on account of its location upon the southeast side of Table Mountain. As far as developed the ledge is very regular in size and is considered a very good prospect.

Clark and Barney will soon build an astra upon the San Joaquin river to run their ore through. Their ledge is very small, but the ore is a sight to look at, being high grade with coarse gold. The mine is situated upon the side of the mountain sloping to the river and gives them quite a lift on the ledge.

H. S. Williams, of Madera, is in the district with the intention of having his Hanover mine surveyed for a United States patent.

Wm. Blue will shortly commence work upon the Last Chance mine providing his partners will do what is right towards paying their share for the work.—[Fine Gold.]

A Lucky Prospector.

Last Saturday at 9:30 A. M., Miss Annie M. Bickle was married to Fred E. Sheldon, of Ohio, both parties being residents of Hildreth. The event was the talk of the district on account of the popularity of the contracting parties, and being the initiatory ceremony since the discovery of the camp. Justice of the Peace Young was called upon by Mr. Sheldon's right hand man to tie the knot. Miss Annie M. Bickle is a very prepossessing and accomplished young lady, her native place being Troy, Lincoln county, Mo., and she is the niece of T. W. Robinson, one of Hildreth's pioneers. Mr. Fred E. Sheldon has been connected with the McNally Mining Company during the past year. Business for the company will prevent a visit east for the present. The miner joins with the district in congratulating Mr. Sheldon and in the toast "that in sailing through life by paddling his own canoe may his sails be filled with a wind of profit."—[Fine Gold.]

The Pecos.

J. F. R. in the Ventura Republican describes the ancient home of the Pecos as follows: Fifty miles south of Las Vegas, N. M., near the line of the Atchison, Topeka and Santa Fe railroad, are still to be seen the mouldering ruins of the ancient and once populous city of Cienza. History tells us that about 350 years ago Francisco Vasquez de Coronado, at that time Governor of one of the provinces of Mexico, organized an expedition for the purpose of discovering, if possible, the "seven cities of Cibola." After a long journey of trials, hardships and many sad disappointments, we were informed that he reached a strong fortified city of houses, four stories high, and built in a narrow valley in the midst of mountains, covered with pine, and traversed by a stream of water, from which they took some fine specimens of trout.

All surrounding evidences point to the fact that this city of houses was no more than a dream, and that the ruins are the ruins of the Pecos, and consequently one of the seven cities in question.

It is difficult to give anything like an accurate description of these extensive ruins in a short newspaper article; however, I will try to give you readers a few points that may serve to convey a pretty general idea of Cienza as it was a short time ago when I visited the spot.

It is situated about two miles east of Baugh's station, nestled close to the steep slope of rugged, pine-covered mountains that skirt the western edge of the Pecos valley. As we follow the windings of a narrow trail through an undergrowth of pines and cedars, we soon discover the impressive remains of the old Pecos church, its steeple a grim silence, looking down upon a collection of ancient dwellings of the Aztecs. Its walls are over five feet thick, and although fast crumbling to the dust from which they were raised, enough is left to show its vast dimensions of 150 feet in length by sixty feet in width. Two hundred feet to the north is the first group of partially ruined buildings, surrounded by high walls enclosing the entire village. The houses are built on the inside and against the walls, leaving a space of perhaps 200 feet in the center, which forms a sort of amphitheater. These buildings are three and in some places four stories high, built entirely of adobe. The first or lower story wider than the higher story, and runs nearest the opening just referred. The second story or tier of dwellings is constructed on top of the first and a few feet back, so as to leave a promenade, from which an entrance is gained to the first tier of rooms through the roof. Each enclosed story is built a little further back of the one directly underneath it, the whole resembling a high stairway. A little further on we find a similar group of dwellings, only that they are built in a semicircle instead of lengthwise along the walls. All told there must be nearly 1000 separate rooms, many of which are in a good state of preservation. The opening, by which an entrance is gained to these apartments is very small, hardly large enough for an average person to crawl out of.

Entered a number of them and found them neat and clean, with dimensions of about 9x10 feet. Near these dwellings are two large water reservoirs, about twenty feet in diameter. Their original depth we cannot now be fully ascertained, as they are nearly filled with rocks, pieces of wood and other debris. Running from one of these reservoirs is a large pipe or aqueduct, leading perhaps to some point under the buildings, from which a water supply was probably obtained. Its inside diameter is about ten feet. It is of peculiar construction, being composed of balls of cement or adobe, varying in size from an orange to a good sized pumpkin. These are laid together in cement, the whole being covered with a layer of the same material.

It was here that the sacred and everlasting fire was dedicated to Montezuma, and kept burning until some time during the first part of the present century. Upon his removal south into Old Mexico Montezuma commanded his people to keep the fire burning, that he would surely return to them through its smoke and flames. Warriors in turn watched the fire, and kept it burning day and night until wars, old age and disease diminished their ranks, when the three remaining warriors took up the final brand and bore it to the mountains, where, according to tradition, Montezuma himself appeared and received it.

Such, in brief, are the characteristic features of the birthplace of Montezuma.

Santa Ana Items.

[From the Pacific Blade.] Through the courtesy of friends we have, since our last issue, taken a ride out to a point where an A. T. & S. F. force of graders is at work, and have gained quite a definite idea of the status of railroad affairs between San Diego and that place. The camp we visited is that of McCormick & Lawler, contractors, and is situated on the Whiting place about twelve miles southeast of Santa Ana. A force of about eighty men is there working, and the scene is a busy one. The work in that vicinity is quite heavy on account of numerous somewhat deep runways. About three miles of grading have been completed, and a force of about thirty-five men, under Grant Bros., contractors, is at work at a point nine miles the other side of Capistrano. More men are constantly being added to these forces and times are quite lively along the line. Five or six companies of A. T. & S. F. surveyors and about the same number of Southern Pacific surveyors are surveying between here and San Diego. As work on the Riverside and Los Angeles branch is now progressing at the rate of about a mile a day, it may safely be calculated that work on that branch will be long be concluded, and that the full force will then be placed upon this line. If no new developments are recorded, it is safe to presume that iron rails will be laid between this point and San Diego within a few months. Certainly work at present looks like business, and this would seem to indicate business intentions for the future.

More than two weeks ago M. J. Bundy burned some brush at his residence in Tustin City. The brush burned around a system stump. Last Monday night, two weeks after the fire apparently died out, fire which had been smoldering, started from the stump and burned a cord or more of wood for Mr. Bundy. As we before remarked, there is no telling what this climate will not do.

The town site of Buena Park is now being laid out on the land of Mr. Whitaker, seven miles northwest of Anaheim. The town is on the line of the Riverside & Los Angeles Railroad, and the railroad company owns one-half of it. A large park has been laid out and will be beautified and planted to trees and shrubbery. An artesian well is being bored and, generally, the railroad company is taking great interest in the place and preparing to "boom" it. It will undoubtedly be a very good town.

The combination of ingredients used in making BROWN'S BRONCHIAL TROCHES is such as to give the best possible effect with safety. They are widely known as the best remedy for Coughs, Colds, Throat Diseases and Asthmatic troubles. Price 25 cents a box.

Brown's Bronchial Troches for Coughs and Colds. "I cannot very well do without them. There is nothing to be compared with them."—Rev. O. D. Watkins, Walton, Ind. Price 25 cents a box.

A NASAL INJECTOR free with every bottle of Shiloh's Catarrh Remedy. Price 50 cents. G. F. Heinemann, agent, Los Angeles. A positive cure for dyspepsia—DAMIANA BITTERS. Michel Levy & Co., wholesale liquor dealers, agents.

THAT HACKING COUGH can be so quickly cured by Shiloh's Cure. We guarantee it. G. F. Heinemann, agent, Los Angeles.

Damiana Bitters regulate the stomach. Michel Levy & Co., wholesale liquor dealers, agents.

INDIGESTION

A recent attack of indigestion or constipation is easily cured if the right remedy is applied, but every medicine except Hamburg Bitters is no discounting to taste or smell that a person prefers to let the disease take its course if the above caution cannot be obtained. Price 25 cents a box.

DR. FLINT'S HEART REMEDY.

When the heart, kidneys and circulation are in a diseased condition all other ailments are mere "side issues" which really yield to treatment. Dr. Flint's Heart Remedy cures a specific and direct action on these organs. Descriptive treatise accompanying each bottle, or mailed free. It will repay a year's study and prove instructive and interesting. Price 25 cents.

Ask Dr. Flint's Heart Remedy, or address J. F. MACK & CO., 9 and 11 West 4th St., San Francisco.

KIDNEY

Bladder, Urinary and Liver Diseases, Dropsy, Gravel, and Diabetes, are cured by

HUNT'S REMEDY

THE BEST KIDNEY AND LIVER MEDICINE.

HUNT'S REMEDY

cures Bright's Disease, Retention or Non-Retention of Urine, Pains in the Back, Loins, or Side.

HUNT'S REMEDY

cures Intemperance, Nervous Diseases, General Debility, Female Weakness, and Excesses.

HUNT'S REMEDY

cures Biliousness, Headache, Jaundice, Sour Stomach, Dyspepsia, Constipation and Piles.

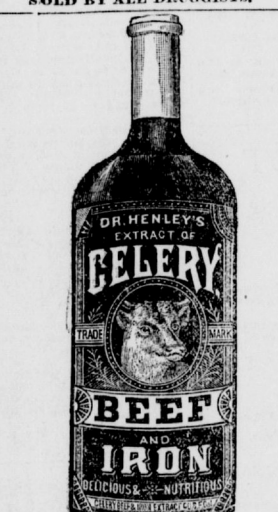

HUNT'S REMEDY

ACTS AT ONCE on the Kidneys, Liver, and Bowels, restoring them to a healthy action, and CURES when all other medicines fail. Hundreds have been saved who have been given up to die by friends and physicians.

Send for pamphlet to

HUNT'S REMEDY CO., Providence, R. I.

SOLD BY ALL DRUGGISTS.

Dr. Menley's Celery-Excessive Mental Labor.

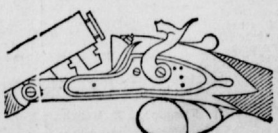

Only those persons whose vocation demands mental labor can appreciate the necessity of brain food, and to these we call attention to Dr. Menley's Celery, Beef and Iron, which is not only food for the brain, but is also a tonic for the blood, affording a stimulating material to the system, the constant practice being daily used by the leading physicians of Europe and America in their practice. Writers, above all others, should look into the medicinal qualities of Celery, Beef and Iron. It is for sale by all druggists.

HALL'S SARSAPARILLA

Cures all Diseases originating from a disordered state of the BLOOD or LIVER. Rheumatism, Neuralgia, Boils, Alopecia, Pimples, Scrofula, Tumors, Salt Rheum and Mercurial Pains readily yield to its purifying properties. It leaves the Blood pure, the Liver and Kidneys healthy and the complexion bright and clear.

J. R. GATES & CO., PROPRIETORS, 117 Sansone St. San Francisco.

NOTICE TO SPORTSMEN.

BREACH-LOADING SHOTGUNS. Just received from Europe. The finest lot of the best makers in the world. All of which we will sell at a low price. Also a full line of Rifles, Pistols, Gun Material and Ammunition of all descriptions. American and English. Repairing of the finest class and checkering a specialty. For particulars apply to H. MAIN ST. H. S. LUTHERBECK.

OCCIDENTAL PRESBYTERIAN UNIVERSITY.

PURE AIR IS HEALTH FOR THE BODY! EDUCATION IS HEALTH FOR THE SOUL! And the opportunity to secure both is rarely offered. It can be found now by buying a lot in the

Occidental Heights Tract!

A subdivision of the donation lands of the great Presbyterian College, whose foundations are now being laid. The

The proceeds of these lots form the building fund of the University, and they are put on the market at a low price to insure immediate sale. The land is level as a floor, situated near the end of Stevenson avenue, which will soon be the most imposing street in the city, and upon which responsible parties are now under bonds to construct a Street Railroad within a short time. The purest soft water may be had at a depth of 30 feet, and arrangements are being perfected for an abundant supply of pure Mountain Water to be piped to the Tract.

It is the intention of the Trustees to open the College for the reception of students next Fall with the ablest Faculty in the State; and the moment it has a open for instruction the value of these lots will increase five-fold. This is a chance that occurs BUT ONCE IN A LIFETIME. A chance to secure a delightful home, with pure water, pure air, soul-inspiring scenery and the highest possible grade of education at your very door, and all within a short street car ride of the business portion of the city. What can any mortal ask for more? THESE LARGE LEVEL LOTS are for sale from

\$160 UPWARDS, FOR A SHORT TIME ONLY, BY

DAILY HERALD.

MRS. BISAZZA.

She Tells her Side of the Story About Troubles.

Mrs. Bisazza stated to a representative of the Herald yesterday that the story told by her husband was not true. She said she had married him on October 30, 1885, in San Francisco, and that he had only \$20 of his own when she married him. Mrs. Bisazza kept a lodging-house at No. 1105 Market street, and her present husband had lodged with her. Supposing that he was a nice man she made things as pleasant as possible for him. She sold out her lodging-house and intended to put her child to school, but he objected to their going away. He then proposed that they should marry and start a restaurant, as he had been in that business. Mrs. Bisazza studied over the proposition and finally consented to get married, with the express provision that the child should go to school. When they were married she found that he had only \$20, his wages as cook in a restaurant, and for two months she paid all the expenses for the three. He urged her to start a restaurant and looking over the city and finding no opening he went into the country to look up a place, which he finally found at San Rafael. Mrs. Bisazza then drew \$600 from the bank, paying some debts and giving him \$200 kept herself. They then went to San Rafael, where she paid \$350 for the restaurant, beside \$185 for groceries, \$200 for crockery, etc., and for furniture, etc. In order to make a success of the business she helped in the restaurant, waited on the table and did the washing and labored very hard in the interests of both, but after they had been in the business a short time he acted suspiciously toward her and would not let her know what was in the money drawer. This went on for eight months, when he involved himself in debt and they had to break up and return to San Francisco. When they had reached that city he tried to borrow money to start in business again and finally she let him have \$100, pretending to have borrowed it on her watch. He opened a restaurant on Taylor street, where she also worked hard, but he acted in the same manner in regard to money affairs. It was while here that he fell in love with a woman named Maroo, who sided with him rather than Mrs. Bisazza. Since the formation of the combination between her husband and Maroo she has not had any peace. They became in debt after about two months on Taylor street, and one morning about 3 o'clock they moved everything to Third street, where things were run in the name of Dubith. Troubled times continued, and Bisazza never so much as thought of buying her anything or supporting her and the child, and on one occasion did not go home for two weeks. When she went to the restaurant to eat he did not treat her well, and after awhile he heard that he was going to sell out. He broke up business again at 3 o'clock in the morning, stealing his furniture, and finally going to Fresno, where she followed him to find him in a nice restaurant. At Fresno he treated her very badly, and on one occasion caught her by the hair, but was prevented from doing anything more by a stranger, who forced him to stop at the muzzle of the pistol. He sold out at Fresno without letting her know, and came to Los Angeles. She was left alone in a strange place, without money or friends, and she sold what household furniture she had and went to San Francisco. She afterward heard he was here, and borrowed money to come to him. When he came here he went by the name of John Fico vich, which he told her was assumed so that she would not find him. He recognized her, and she was about to take a situation when he became ashamed of himself and rented rooms on Spring street. They occupied these until one night he turned her and the child on the street and now she has come to the conclusion that she had best let him alone. According to her story he used very abusive language to her. She said that the glasses were broken in the restaurant by reason of his violence when she attempted to take money from the drawer to pay her expenses. She is of the opinion that he intends to sell out here and leave her alone, but she has no hope of ever obtaining the money she advanced in the earlier part of their married life. Mrs. Bisazza's first husband is reported to be Thomas Finch, who is at present living in Oakland.

The Busiest Man in Town.

Probably the busiest man in the city of Los Angeles to-day is General E. E. Hewitt. He has 10,000 carloads of freight from the north, south and west rolling in upon him, in consequence of the action of the Interstate Commerce bill, which, it is claimed, will advance freight materially; so all merchants have ordered a six months' stock of goods from the east in advance, in order to be free of the increased charges overland under the Interstate bill. As a consequence the General's route and the A. T. & S. P. and the A. & P. are all choked up with freight. There is about room for 500 cars in town, but General Hewitt is tearing down houses north of the passenger depot and grinding the land with railway tracks to make room for the tremendous freight receipts now due and overdue in this city. The General makes quick work of a freight-car. It is unloaded in a trice and rushed off to some other locality to make room for another car. A side-track is preparing to be laid on Mission street to the great oil warehouse of Whittier, Fuller & Co., so their cars will be out of the way. The side-tracks in all directions from the city are filled with cars, while the freight-trains are coming and going like a weaver's shuttle. The addition to the roundhouse is completed and the increased side tracks are being extended as fast as possible to accommodate the increased number of cars. Everything is being done that can be done under the circumstances to relieve the situation. But when it is taken into account that a supply of six or nine months of goods, wares and merchandise for Southern California is pressed upon the railways and depots of the city in a space of three weeks, the surprise and disappointment at not receiving goods overdue must disappear. Such a rush was never known in the commercial history of the country, and it is for this reason that the people have such excellent railway officers at the Southern Pacific depot as Gen. Hewitt and his able assistant, Mr. J. A. Muir, to direct this great freight and overflow of business. What the General doesn't know about guiding a complicated railroad entanglement and pressure is not worth looking after.

"There's a divinity that shapes our ends rough-hew them as we will."

This is a popular and free translation of the immortal bard, and the shippers and receivers feel that their delay is rough, but they are perfectly satisfied with the way the General is managing matters and all join in the chorus, "Hewitt as you will."

Knowing that all will be done that can be done wisely and well.

FINANCE AND TRADE.

A Review of the Day's Transactions.

New York, April 6.—The stock market to-day was less active but was somewhat irregular and displayed more decided weakness. Coal stocks, with Union Pacific and Fort Worth and Denver absorbed most of the interest, and the market was very strong, and the advance culminated before the end of the first hour. The decline was checked before noon and a marked decrease in business was noticeable thereafter, while underwent a change at the same time and small fractions were gained throughout the list before 2 P. M. Jersey Central being conspicuous with a gain of 1 per cent. Realizing, however, was renewed in the last hour and the market closed heavy, or at near the lowest price of the day. Government and State bonds were dull and steady.

Financial.
